M.S.M. College, being an institution that predominantly runs traditional courses with subsidised fee structure in the Arts, Science and Commerce streams, has, unlike autonomous colleges, limited avenues for financial mobilisation to engage consultancy services and award of contracts to external agencies. Hence, strategic planning and stream-lined execution of projects through institutionalized and ad hoc mechanisms have become a part of our work culture. The Management, the Staff Council, the IQAC, the representatives of the Students' Union of the College, and in certain cases, the elected representatives of the Local Self- government body are chartered to work in co-ordination in the planning and execution of events and projects that remain outside the purview of regular academic and administrative domains.

The institutional perspective plan aligns with the vision and mission of the institution, which are the constant driving factors for improving academic quality policies and strategies. It is effectively deployed to focus on bringing quality improvements in the areas of: 1. Curricular Planning and Implementation 2. Teaching- Learning Processes 3. Research, Collaboration and Extension Activities 4. Academic infrastructural facilities 5. Student Support Activities and Student Progression 6. Internal Quality Assurance System 7. Institutional Values and Best Practices 8. Governance, Leadership and Management At the beginning of the academic year, various bodies and committees that constitute the Organogram of the institution, chalk out the strategic plan of events and activities which will support the growth and development in these key areas and at the end of the year, a review is taken about implementation and the outcomes of the perspective plan
